Registered Charity Number 1121874

GEORGE

May 2010

Dear

Firstly a big thank you for your generous donation to George's Fund, we have now reached our target. Please read below for an update on George's condition.

When George was first seen by a vet, the prognosis was he had cataracts in both eyes and would require an operation as soon as possible. He was then seen by Consultant Ophthalmologist, Mrs Kathy Ward, who prescribed eye drops and arranged to see him again in six weeks. On her next visit she confirmed that his eye sight had got no worse. Mrs Ward said that the success rate of the operation would only be 15% - not very good odds. Mrs Ward recommended that we should continue with the eye drops and she would see him again in twelve weeks. She will continue seeing him at regular intervals (probably for the rest of his life and as he is only ten months old that will hopefully be for a long time).

Each visit costs £80 and the eye drops are £18 every three weeks. Even though Mrs Ward does not want to operate at present, the treatment which is ongoing is very expensive, and Mrs Ward is not ruling out the need for an operation in the future, so we must ensure we have the money available.

Please visit our website www.devongsdrescue.org.uk for updates on George and more information on the work of the Charity.

Thank you once again for your generosity.

Yours sincerely,

Marion Williams
